Chapter 1: Substance Compliance enhancements

Starting this release, the Substance Compliance-IMDS Integration solution provides the following enhancements:

- Ability to work with the latest version of International Material Data System (IMDS) to support supplier declaration requirements.
- Improved support for IMDS features, providing access to a wider range of IMDS capabilities in Active Workspace.
- Ability to **review the details of the compliance failure results** that are returned by Compliance Process Manager. The details are listed as failure comments in Active Workspace.
