Chapter 1: Release Notes

Using Teamcenter community collaboration (Community Collaboration), you can share product and design data using Web sites and document management to collaborate inside and outside your company. You can view 2D and 3D files, hold conferences, connect to and publish from data sources, and set up calendars, task lists, discussions, and more.

For more information on supported platforms, see the Siemens PLM Software Certification Database at: http://support.industrysoftware.automation.siemens.com/certification/tc_com.shtml

Chapter 2: What's new

Community Collaboration 11.2.3 includes the following new features:

Feature	Description
Upgrade path	Upgrading to Community Collaboration 11.2.3 for SharePoint 2016 is supported from: <ul style="list-style-type: none"><li data-bbox="553 680 1390 747">• Community Collaboration 10.1.5 for SharePoint 2013 (latest patch)<li data-bbox="553 783 1390 850">• Community Collaboration 11.2.2 for SharePoint 2013 (latest patch)

Chapter 3: Product name changes

As the different products merge under the Teamcenter brand, the products have been renamed to reflect the Teamcenter name and describe their function more fully.

Former names	New name
Teamcenter Community	Teamcenter community collaboration (Community Collaboration)
Teamcenter Conferencing	Conferencing
Teamcenter Engineering	Teamcenter engineering process management (Engineering Process Management)
Teamcenter Enterprise	Teamcenter enterprise knowledge management (Enterprise Knowledge Management)
Teamcenter Requirements	Teamcenter systems engineering and requirements management (Systems Engineering and Requirements Management)
Teamcenter Visualization	Teamcenter lifecycle visualization (Lifecycle Visualization)

Chapter 4: Localization support

The user interface for this release is localized for the following languages:

- Chinese Simplified
- English
- French
- German
- Italian
- Japanese
- Korean
- Spanish

The online Help and Release Notes are localized for the following languages:

- Chinese Simplified
- English
- French
- German
- Japanese
- Korean
- Spanish

The Installation and Upgrade Guide is provided in the following languages:

- English
- Japanese

Chapter 5: Problem reports resolved

The following PRs were fixed for 11.2.3:

PR	Description
7800975	Integration web part error - Teamcenter has detected a serious internal error
7770812	Teamcenter Integration web part does not retrieve data from Teamcenter

The following PRs were fixed for 11.2.2 and are included in the 11.2.3 release:

PR	Description
7746293	Custom forms don't save to the list. Core SP functionality not working
7747341	AppShare should only use the configured web application for authentication
7747349	AppShare should not require users to be added to "Allow log on locally" policy
7630053	TCC 10.1.5 breaks drag & drop in SharePoint libraries
7660737	Seamless Edit "An unspecified error has occurred when checking out the document"
7641653	TCC 10.1.5 - Unable to download multiple files
7697877	Display names with & character are not returned in List Rollup with [Me] rule

Chapter 6: Issues and workarounds

Note

Issues and workarounds from previous releases have been incorporated into the online Help or listed in the **Troubleshooting** section of the *Teamcenter community collaboration Installation and Upgrade Guide*.

Chapter 7: Server platforms

Note

Any operating system that is not listed is not supported.

For a list of supported server platforms for Conferencing Server, see *Conferencing Server 11.2.3 Release Notes*.

Windows

For Community Collaboration operating systems requirements, please refer to *Hardware and software requirements for SharePoint Server 2016* at [http://technet.microsoft.com/EN-US/library/cc262485\(v=office.16\).aspx](http://technet.microsoft.com/EN-US/library/cc262485(v=office.16).aspx)

Chapter 8: Server software

Windows

The following software is supported on the Windows platforms listed in [Server platforms](#).

- SharePoint Server 2016

Reverse proxy with Community Collaboration is supported for the following:

- Apache 2.2
- IBM's WebSEAL 6.0 or 6.1

Chapter 9: Client platforms

Note

- Browser information is in the [Web browsers](#) section.
- Any operating system that is not listed is not supported.
- For a list of supported client platforms for Conferencing Server, see *Conferencing Server 11.2.3 Release Notes*.

UNIX

The following UNIX platforms are supported for the Community Collaboration Utilities clients:

- Sun Solaris 10 or 11 on Sparc
- Linux SUSE Enterprise Server (SLES) 11 SP2
- Linux RedHat 6.x

Windows

The following Windows 32-bit and 64-bit machines with the following operating systems are supported.

- Windows 7 Enterprise and Professional (32-bit and 64-bit)
- Windows 8 (64-bit)
- Windows 10

Chapter 10: Client software

Note

Any client or operating system that is not listed is not supported.

Community Collaboration Utilities

Community Collaboration Utilities are supported on both UNIX and Windows **client platforms**.

Microsoft clients

The following Microsoft Clients are supported on Windows **client platforms**.

- Microsoft Office 2013
- Microsoft Office 2016

iSeries

iSeries is bundled with Community Collaboration and is supported on the following platforms as a 32-bit application:

- Windows 7 Enterprise and Professional (32-bit and 64-bit)
- Windows 8 (64-bit)
- Windows 10

Note

- iSeries requires Internet Explorer 10 or higher.
- To run iSeries on a 64-bit Windows platform, you must install the 32-bit version of Lifecycle Visualization and use the 32-bit version of Internet Explorer.

Chapter 11: Teamcenter integration clients

The following Teamcenter products are supported as integration clients with Community Collaboration 11.2.3:

- Teamcenter 10.1 and 11.2
- Teamcenter enterprise 8.1 and 9.0
- Teamcenter systems engineering and requirements management 10.0
- Teamcenter lifecycle visualization 10.1, 11.1, and 11.2
- Conferencing Server 10.1, 11.1, and 11.2

Note

Information on the platforms these products are supported on can be found in their respective documentation.

Chapter 12: Web browsers

For more information, see *Plan browser support in SharePoint Server 2016* at [http://technet.microsoft.com/en-us/library/cc263526\(v=office.16\).aspx](http://technet.microsoft.com/en-us/library/cc263526(v=office.16).aspx).

Chapter 13: Java Runtime Environment (JRE)

The Java Runtime Environment (JRE) software package that can be installed on the different platforms is JRE 8 or higher. This JRE supports all Teamcenter clients, and is needed for the following Community Collaboration components:

- Application Sharing Thin Client for viewing conferences in view-only mode
- (UNIX only) Assembly Uploader for uploading files and folders to the document library

Chapter 14: Proprietary and restricted rights notice

Siemens and the Siemens logo are registered trademarks of Siemens AG.

Teamcenter is a registered trademark of Siemens Product Lifecycle Management Software Inc. or its subsidiaries in the United States and in other countries.

This software and related documentation are proprietary to Siemens Product Lifecycle Management Software Inc.
